PROGRESS FOR GUNNAMATTA CLEAN UP: NOW TO RE-USE THE WATER AND CLOSE THE OUTFALL

With local surfers and Clean Ocean Foundation members, Hope and Claire Cameron and Anton Vigenser, at Gunnamatta Beach

I am delighted that the State has agreed, after years of lobbying and petitioning, to upgrade the Eastern Treatment Plant to Class A Water. This will help clean up the beach.

The task now is to ensure that 100% of that water is recycled and distributed to Peninsula farmers and other users. The State must immediately allocate funds from the budget for the upgrade.

SUCCESSES TO DATE:

- ✓ Upgrade of Eastern Treatment Plant to Class A now promised—this is a huge step towards cleaning up **Gunnamatta**.
- ✓ National clean up of outfalls through the National Water Initiative is underway.
- ✓ Over 40 local **community** water projects have been supported, including:
 - \$204,003 to the **Dromana** Bowls Club
 - \$189,035 to the **Somerville** Bowls Club
 - \$32,924 to **Tooradin** Primary School
 - \$6,495 to Sunshine Reserve Conservation and Fireguard Group, **Mt Martha**
 - \$37,169 to the **Phillip Island** Homes for the Aged Association

THE TASK AHEAD:

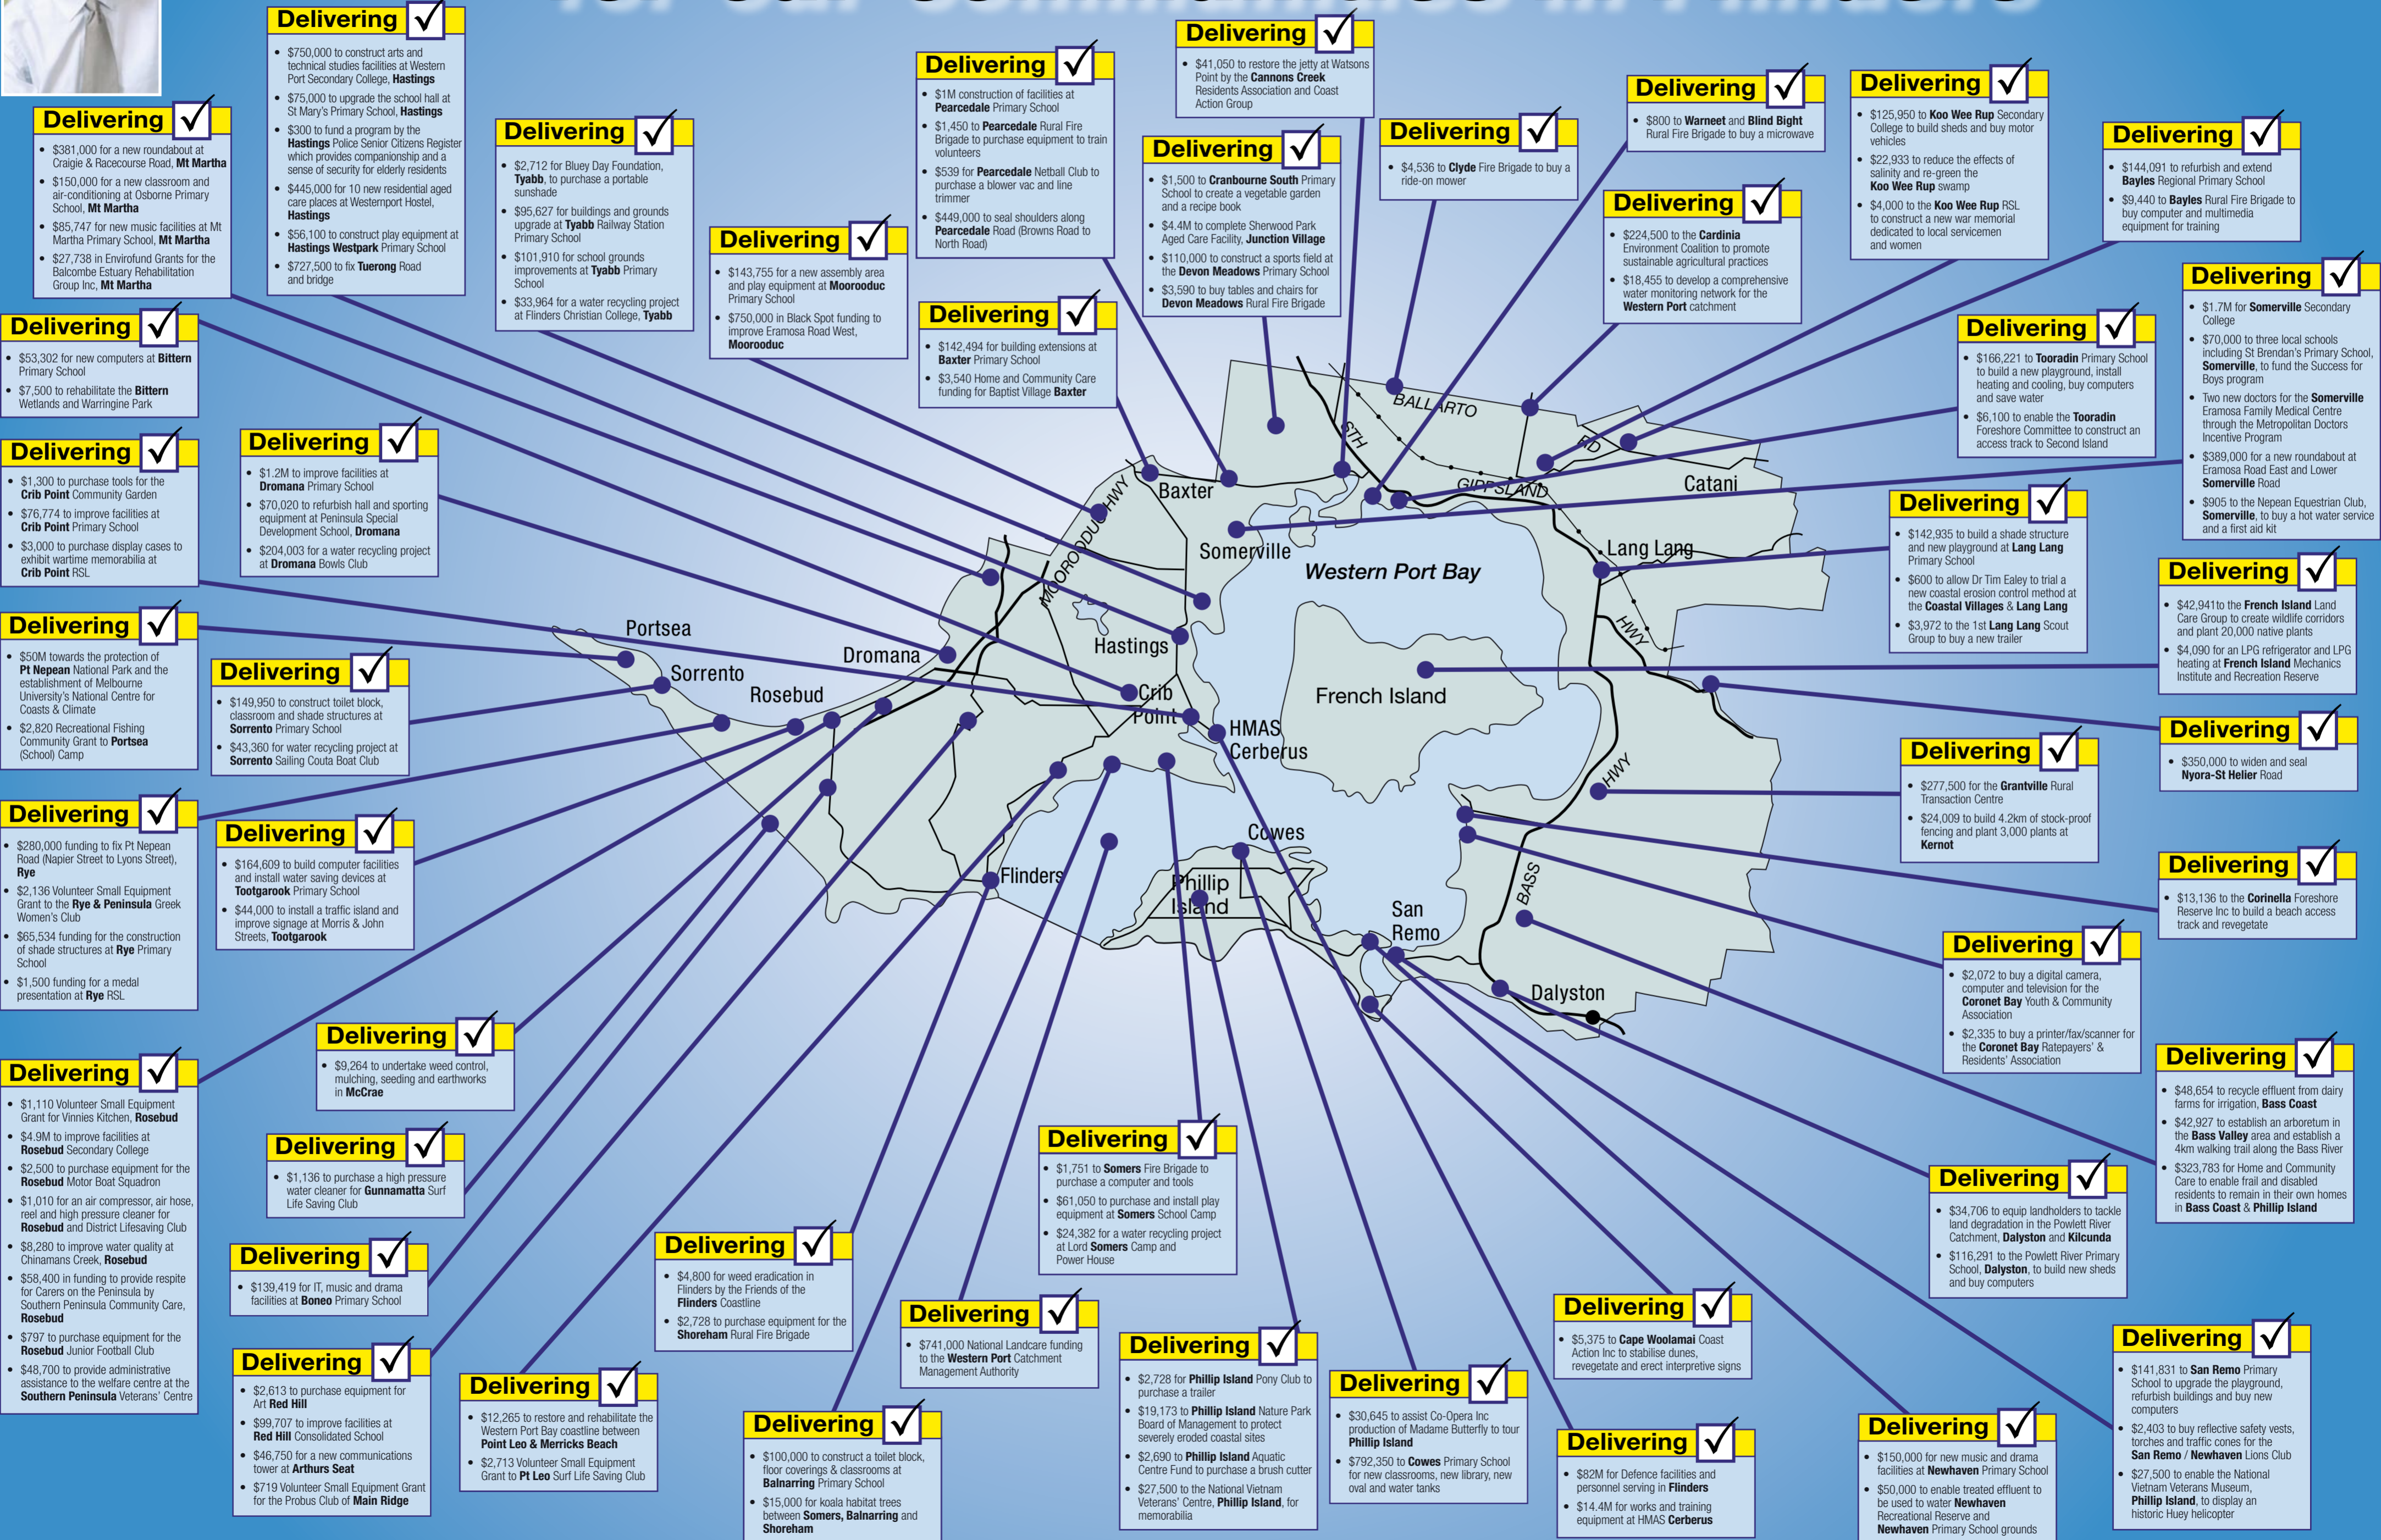

- ✓ Fight to convince the State to **recycle 100% of Gunnamatta water**.
- ✓ **Install water tanks for all local schools** on the Peninsula, Western Port and Bass Coast regions.
