500km Walk for Justin

Helping to find a cure for Juvenile Diabetes

Dear Resident,

Late last year the Juvenile Diabetes Research Foundation (JDRF), introduced me to Justin, a five year old boy from Phillip Island. Justin has juvenile diabetes, a condition that may pose serious health consequences and is both unpleasant and unrelenting to treat.

For this reason, during April and May this year, I plan to undertake a 500km walk throughout my electorate of Flinders to increase awareness about juvenile diabetes and to raise at least \$25,000 to assist the Juvenile Diabetes Research Foundation in their important work.

Overleaf is a map showing the route I will travel, as well as a daily program.

I would be delighted if you wished to meet with or walk with me at any point along the route.

Yours sincerely,

GREG HUNT MP

PS If you would like to support the Juvenile Diabetes Research Foundation in its work to cure juvenile diabetes please forward any donations to:
